# Our Courses

INTEL offers 4 special packages of its Bridge Course. These are specially designed for students planning to do +2 or A Levels in Science or Management after SEE.

The Advanced Science Course is a very popular course at INTEL. Due to the vast difference between SEE & 10+2, it is vital to bridge this wide gap in the learning of Science Subjects. ## Advanced Management Course (AMC)

This Course teaches students from the basics to Grade 11 level of subjects in the management stream. Around 40 to 50 percent of Grade 11 Course of the subjects below is covered. Alongside, AMC prepares them for entrance tests of top 10+2/Colleges.

## A-Levels Bridge Course (ABC)

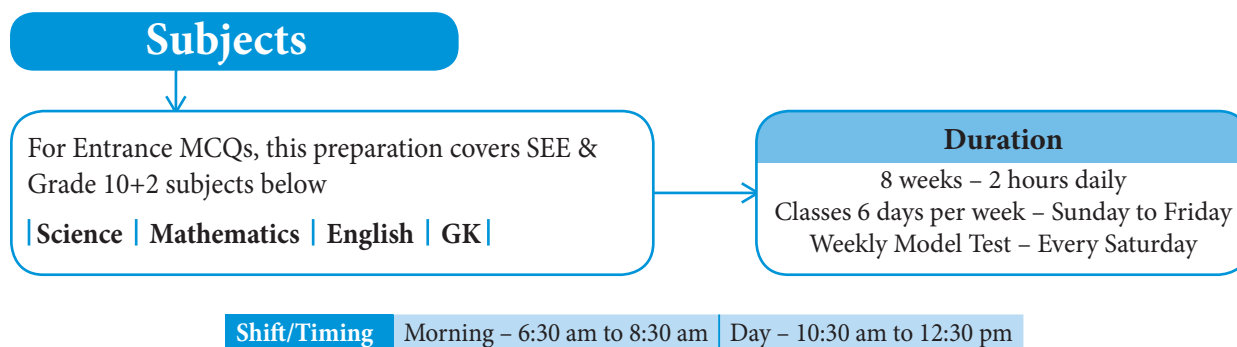

Cambridge A Levels follow a different teaching-learning approach from the SEE so that this Course makes students get familiarized with what they will have to study in A Levels. Also, the Course prepares them for entrance tests of top A Level College normally based on the Cambridge O Levels school pattern.

## Entrance Preparation Course (EPC)

Getting admission in reputed 10+2 school or colleges is highly competitive. Our Entrance Prep provides intensive classes for those students wishing to succeed in entrance tests for admission to top 10+2/Colleges.

### Fabulous Moments

The three months that I spent at INTEL were the most fabulous moments of my life post-SEE. Along with widening the horizon of my knowledge, I also gathered many valuable memories for the rest of my life. This Institute provided me with the right platform to showcase my talents. Along with getting to know many well-reputed and experienced teachers, I also tied knots of friendship with many brilliant youngsters of my age. Importantly, I got a true glimpse of what is possible in my life ahead through what I learned at INTEL.

### Thanks INTEL!

With great respect, I want to thank INTEL as it is the one and only gateway for post-SEE students in the nation for assuredly effective higher education. INTEL is really a splendid organization where students can measure their real worth among all the students of the country and judge their respective academic positions and their study-related abilities. Besides its intelligent teachers and well-qualified managerial staff, this Institute has turned out to be the largest, the most successful, and the best Bridge Course Institute of Nepal. Having been a part of this glorious Institute, I really feel deeply honored and proud even today!

### Fine Memories & Much Knowledge

INTEL Institute contributed much knowledge during our Bridge Course. Today, lots of fine memories relating to education remain with me. It was indeed a very nice time there which I will never forget. It also gave us many other sweet memories and fun-filled experiences which still make me feel happy whenever I remember my days there. The time that we spent with our teachers, our friends, and our classmates is an indelible part of my joyous past.

Honestly, it is one of the best institutes I ever went to and one which I will never forget. Hope for more success for INTEL as the years go by for this twenty Nine-year-old wonder!

## A Great Experience!

Well, I'm absolutely sure that INTEL has been most beneficial to me. At first, when I'd thought of doing a Bridge Course, many of my relatives and peers told me about this institute...INTEL was truly a great experience!

And I must express my heartfelt thanks for all that INTEL did for me. The teachers, staff, and all other members of this Institute were a great support for my further studies. And I hope that in the days to come this institute will be even more successful. All the very best for the new students joining INTEL where success will certainly be their award!

## The Best Institute of Nepal

For me, the Bridge Course has been a huge support for my college studies. INTEL Institute is one of the best institutes of Nepal; it certainly helps students awaiting Grade 10 (SEE) results to boost their academic capability. I found that this Institute provides a stage for post-school students to explore themselves greatly. It uplifts their self-confidence and helps them to come to grips with the courses of Grade XI. No wonder I have done so well in my college studies! Overall, I can say without any doubt, that INTEL is clearly the best institute in Nepal for the Bridge Course. Hope it will prosper all the more and continue to change the lives of many other post-SEE students just as it has changed my life so admirably . . . So, keep it up INTEL!! I'll never forget you.

## Fabulous Moments

The three months that I spent at INTEL were the most fabulous moments of my life post-SLC. Along with widening the horizon of my knowledge, I also gathered many valuable memories for the rest of my life. This Institute provided me with the right platform to showcase my talents. Along with getting to know many well-reputed and experienced teachers, I also tied knots of friendship with many brilliant youngsters of my age. Importantly, I got a true glimpse of what is possible in my life ahead through what I learned at INTEL.

## A Very Special Place

INTEL occupies a very special place in my memory. Why? The Institute run by a top educational group offers a well-maintained educative environment that yields top results. *Intellians* alone crowd the entrance exam lists in the country and have literally been doing so since decades. The teachers are unimaginably well-trained and the MCQs they provide are the best in Nepal. Regularly-held, thorough Saturday tests help us discover our strengths and weaknesses for building our scholastic abilities outside formal schooling in this important break between high school and college.
